EXTERIOR COLORS

Create a unique custom look to your home with the ability to paint any color.

PRODUCT LONGEVITY

Unlike natural wood, our vinyl will not require up keep like sanding. Mold and moisture will not cause rot or damage.

"We brought the Paintable Stainable vinyl material into our product line because it offers a whole new range of options for those seeking custom styles to fit the interior of their home."

- MARIO N., CEO OF CLIMATE SOLUTIONS

Preparation

- Keep clean as possible before applying finish.
- Before starting, thoroughly test any paint or stain on scrap material or a non-visible piece.
- Read and follow the paint or stain manufacturers' instructions and warnings for application, preparation and clean up.

Painting Instructions

- No primer necessary, remove any foreign material before painting. Follow instructions for cleaning.
- Latex and oil paints both apply easily with a brush, roller or sprayer, usually with one coat.

Staining Instructions

- Mix stain well. Apply with a clean, dry lint-free cloth.
- Very little is needed, so wipe with a separate cloth to remove excess.
- Always finish with a high-quality urethane, using a clean brush.

IMPORTANT NOTICE

The recommendations contained in this notice represent our best judgment based on our most recent testing of finishing materials and individual application which are beyond our control, Climate Solutions, cannot be responsible for results and performance of any particular finish or application. CS-0081519-AP-1

Cleaning Instructions

- If vinyl gets soiled, clean with an all-purpose cleaner, such as Formula 409.
- DO NOT sand, this may damage the film surface.
- Tougher stains may be removed with commercial cleaners, such as TSP in moderate concentrations.
- Always test any cleaner on a hidden area or test piece before attempting to clean any vinyl.

WINDOWS ARRIVE UNFINISHED, READY TO PAINT OR STAIN

Climate Solutions

INTEGRITY MEETS AMERICAN MADE, HIGH QUALITY PERFORMANCE

Climate Solutions has been providing the highest quality materials in windows and doors for over a decade. We manufacture all of our vinyl windows and doors out of Chicago and we offer a **Limited Transferable Lifetime Warranty** on our residential window and door products.

Proudly Made in Chicago

Products are manufactured in our Franklin Park factory, with state-of-the-art production lines. Unlike many manufacturers, we cut & assemble our Insulated Glass Units, as opposed to ordering them in for greater **quality control** and speed.

Best in the Nation

Year after year, Climate Solutions has ranked on the list of **Window+Door Magazine's Top 100** Manufacturers in America. This W+D report is conducted each year to share insight on the window and door industry. Climate Solutions has made the list repeatedly: **2018, 2021, 2022**
